Brand Story

Kurlon started its journey in 1962 when Ramesh Pai, the founder, envisioned creating an industry for coir due to the abundance of coconut trees along India's vast coastline. During one of his visits to Germany, he discovered coir's extensive use in automobile seating. At that time, coir had hardly any market presence in the country. However, due to his pioneering insights, he recognised its potential for mattresses. With the launch of Kurlon, he went on to make history with coir in India.

Started as Karnataka Coir Products Pvt Ltd with one factory in Arsikere - a small town in Karnataka.

Kurlon bags its first railway order.

Introduces the campaign 'Stand on, Sit on, Sleep on, Kurlon.'

Becomes an ISO 9001 certified company

1962

1969

1988

2000

1965

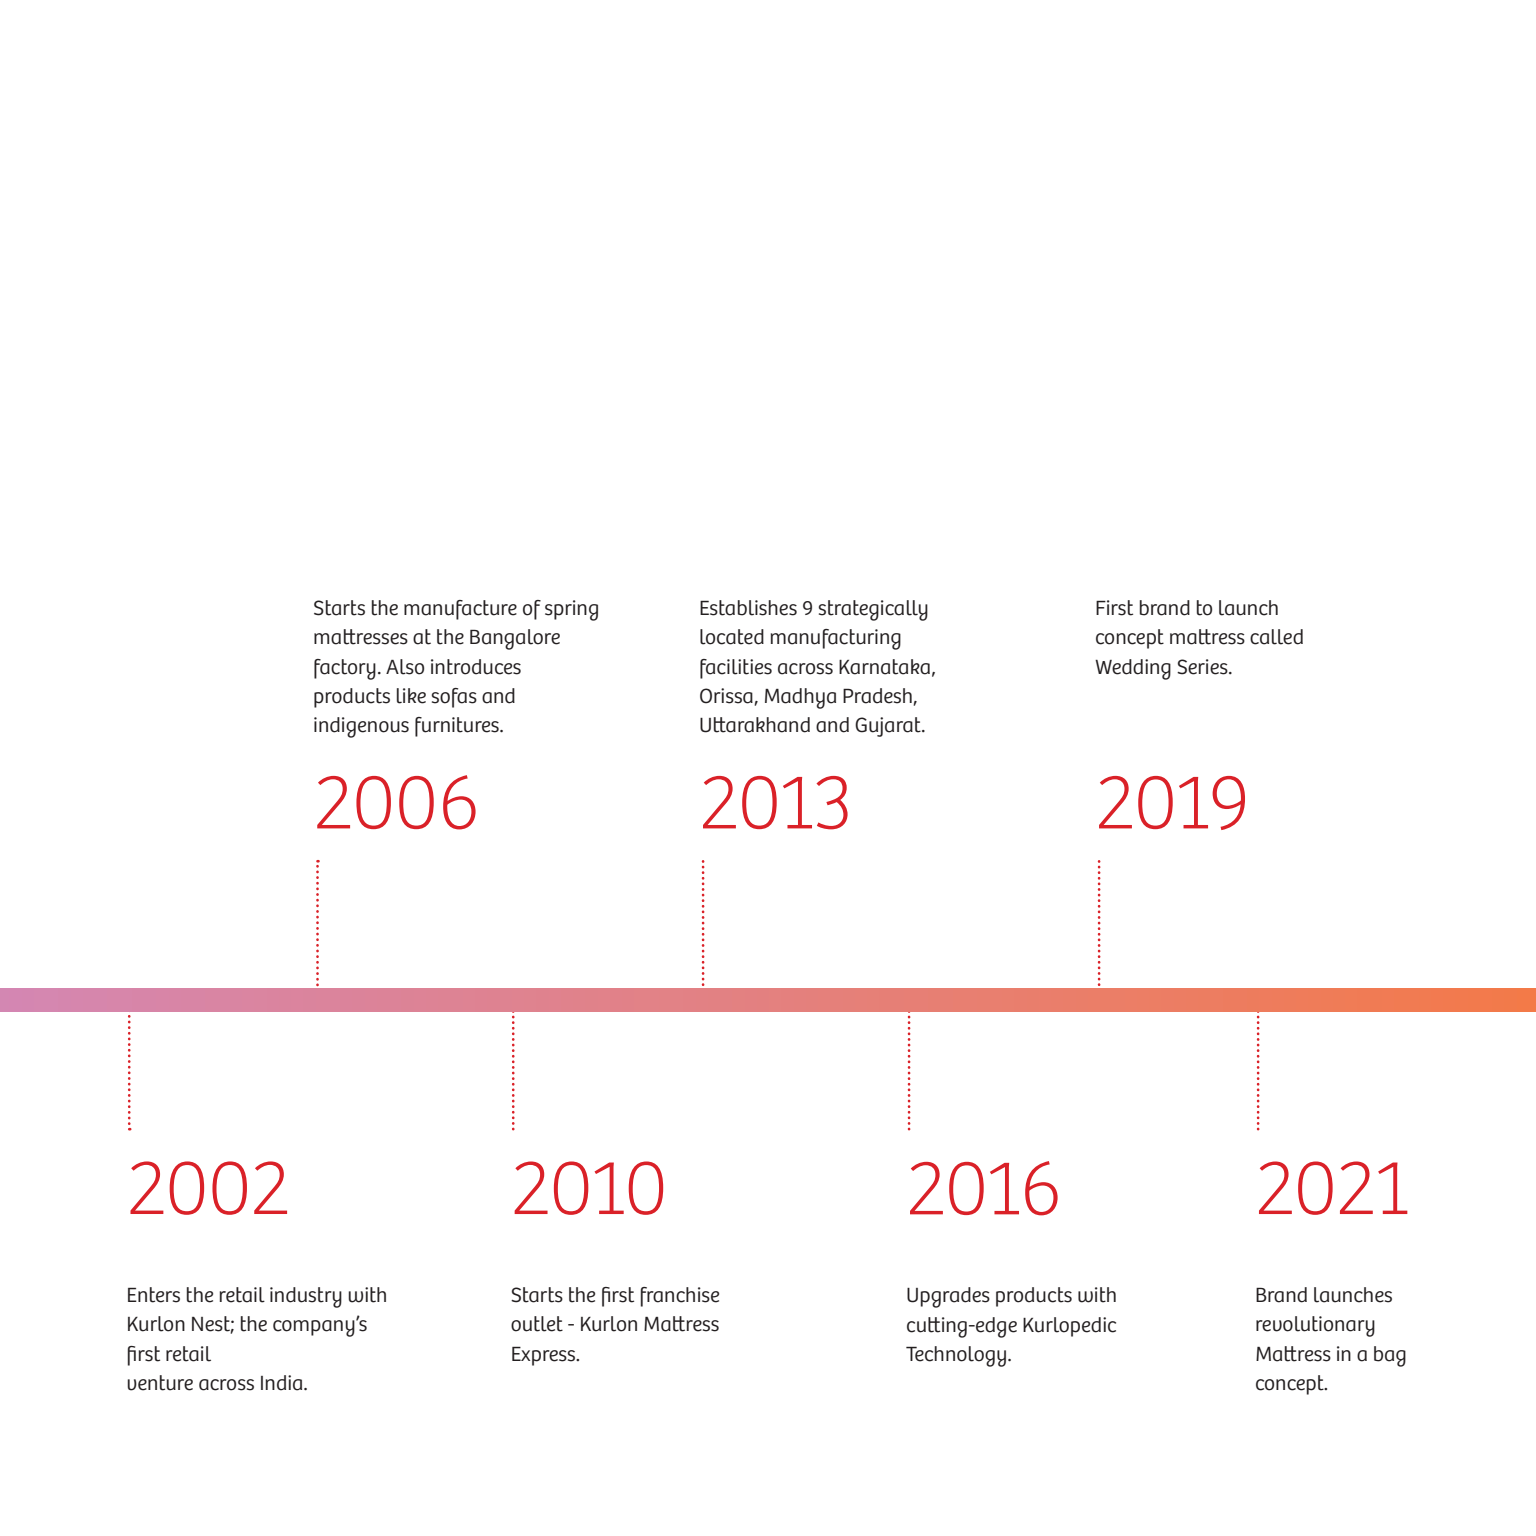

Rubberized Coir mattress launches in India.

1972

Wins contract to manufacture car seats for Mahindra & Mahindra, Hindustan Motors.

1995

Initiates in-house production of polyurethane foam. Pioneers the quilted mattress concept and becomes the first mattress brand to advertise on print and TV.
