

Your comfort, now certified.

Our commitment to your health and well-being is backed by trusted certifications. The technology behind your mattress is scientifically validated, ensuring you get the best sleep possible.

Sleepwell's Pro Nexa® technology is patented technology and certified by RMIT University, Australia. It conforms to the shape of the body up to 67% better, 32% higher pressure relief for a more relaxed sleep, and 27% faster heat dissipation, as compared to conventional memory foams.

Pro FitRest mattress is recommended by The Indian Association of Physiotherapists (IAP) for enhanced muscle recovery.

Pro Spinetech mattress is recommended by the Indian Academy of Orthopaedic Surgeons (IAOS) for spinal health.

Neem Fresche is an anti-microbial technology in all Sleepwell products. Protects from dust mites, allergies and breathing disorders. It is certified by US Environmental Protection Agency for natural germ protection.

Get the best sleep with Sleepwell.

Sleepwell

Pro Latex Plus
Royale

Regale in the comfort of
ultimate pressure point relief.

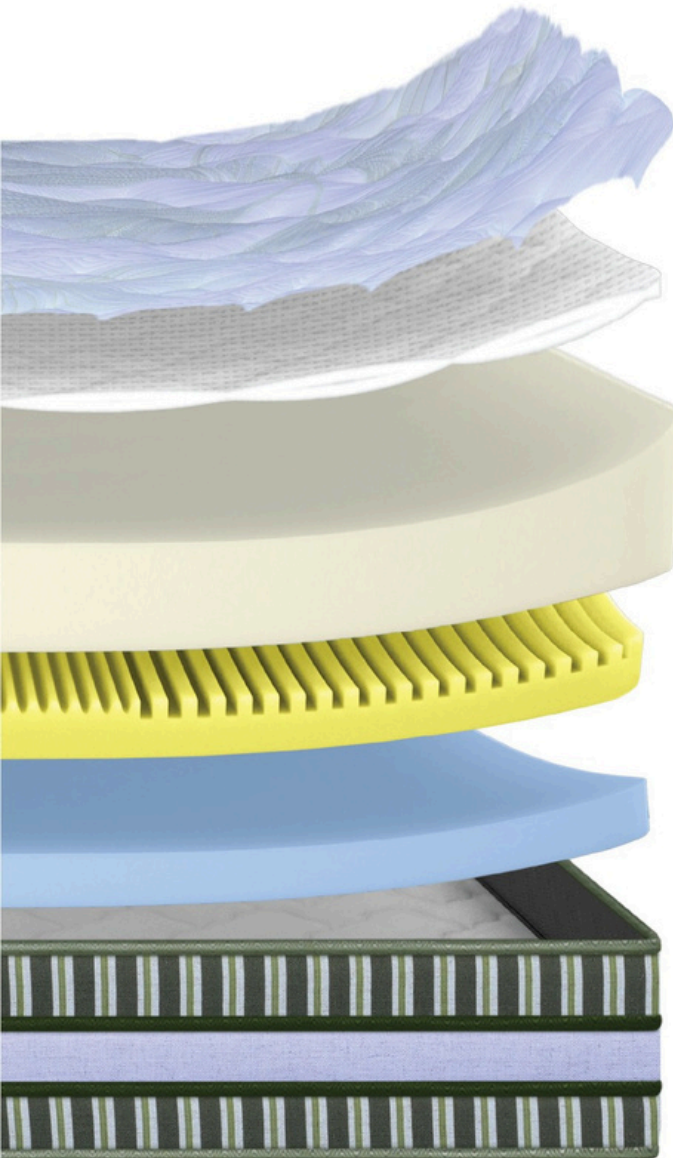

Sleepwell

Pro Latex Plus Royale

What goes inside

- ① Premium European knitted fabric with Cool Yarn
Luxurious, high strength, soft textured and tear resistant fabric with an international aesthetic
- ② Sleepwell Quiltec® foam quilting with fiber polyfill
Sleepwell's ingenious foam for plush surface feel. It enhances heat dissipation to eliminate humidity and has superior loft compared to other quilting foams.
- ③ Sleepwell Latex Plus® foam
Plush and bouncy with even pressure distribution and greater flexibility.
- ④ Resitec Foam with Acuprofile support layer
ContourPro+, a groundbreaking mattress featuring ingenious contouring technology with a 3-zoned resitec profiling system. It offers exceptional support, even pressure distribution, and improved ventilation for a restful and rejuvenating sleep experience.
- ⑤ Sleepwell Resitec® foam
Flexible and resilient. Enhanced breathability with even pressure distribution. Adds extra comfort as a top layer.
- ⑥ Engineered side wall technology
Enhanced durability, aesthetics and side seating comfort.

Advantages

- ① Ultra plush Luxury
Plush top feel with Quiltec® foam in quilting with fiber polyfill
- ② Ultimate muscle pain relief
- ③ Assured warranty*

- ④ 20.0 cm (8.0") thick
- ⑤ Pro Latex Plus® technology
- ⑥ Anti-skid

- ⑦ knitted cool fabric
- ⑧ Uniform spine alignment
- ⑨ Engineered side wall technology

Sleepwell

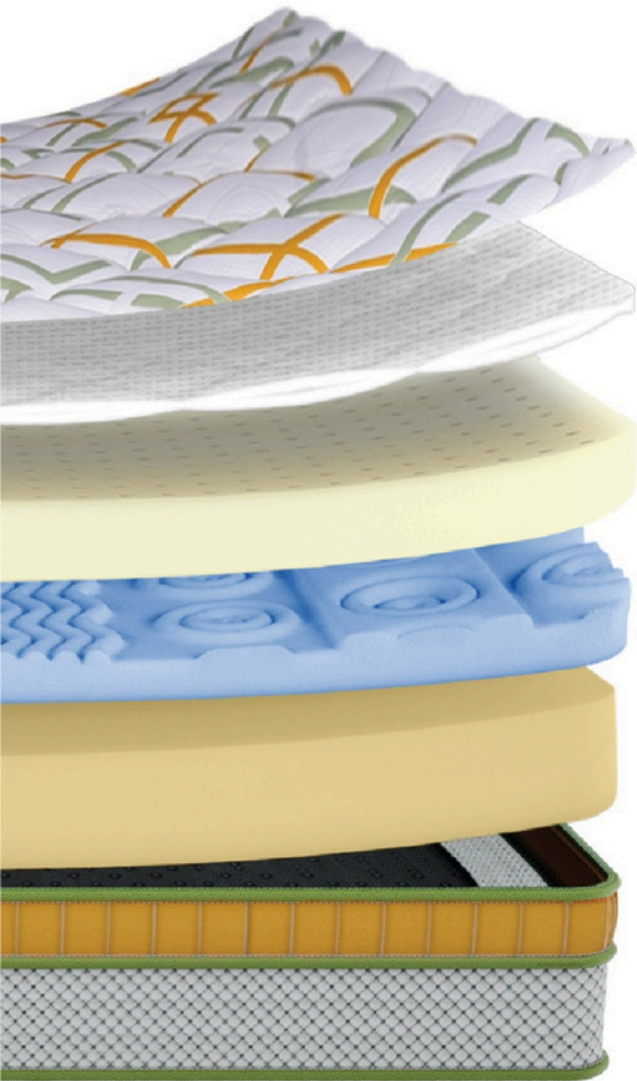

Pro Spinetech
Luxury

Luxurious orthopaedic
latex mattress.

Recommended by the Indian Academy
of Orthopaedic Surgeons for spine health.

What goes inside

- ←-----① Premium european knitted fabric with euro top Finish
European style enclosure that allows more top layers for deeper comfort and styling. Euro tops are extra top comfort layers inside the same mattress. Offers smart aesthetics and enhances comfort.
- ←-----② Sleepwell Quiltec® foam quilting with fiber polyfill
Enhanced flexibility and comfortable bounce with optimal body support.
- ←-----③ Purest Natural Latex
Unlike conventional natural latex which are made using synthetic materials, Purest natural latex offers you uncompromised pressure relief and comfort.
- ←-----④ 3 Zoned Sleepwell Profiled Resitec® foam
A new ingenious 3 zoned profiling with special contouring for even pressure distribution and improved ventilation.
- ←-----⑤ Sleepwell Resitec® foam with VPF
Flexible and resilient, this layer ensures even pressure distribution for added comfort. With VPF technology, it also contributes to an eco-friendly sleep solution.
- ←-----⑥ Anti-skid bottom fabric
Enhanced grip fabric to keep mattress in fixed position.

Advantages

- | | | |
|---|---|--|
| ① Medium firm feel | ④ 20.0 cm (8.0") thick | ⑦ Moisture - wicking premium knitted fabric |
| ② Luxurious top feel with Quiltec® foam & fibre in quilting | ⑤ Purest natural latex for best spinal health | ⑧ 3 Zoned profiled resitec foam for best orthopaedic support |
| ③ Superior air circulation | ⑥ Anti-skid | ⑨ Assured warranty* |

Engineered with marked
pressure zones to align your
spine.

What goes inside

- ① **Knitted Fabric with Wave Zoning Design & Euro Top Finish**
Wave zoning creates targeted firm and support zones for superior back comfort, while the Euro top adds an extra layer of plushness, enhancing both aesthetics and overall support in a single, smart design.
- ② **Profiled Impression & Sleepwell Quiltec® quilting**
The use of Sleepwell ingenious profiled Impressions and Quiltec® foam together in quilting offers a luxurious cushy surface for plush comfort.
- ③ **Resitec Foam with Acuprofile support layer**
Flexible and resilient. Enhanced breathability with even pressure distribution. Adds extra comfort as a top layer.
- ④ **3 Zone pocket springs**
Supports the body's spinal alignment and posture with its anatomical design. Engineered zoned pocket springs adapt to the specific pressure points and body curves, offering enhanced pressure relief.
- ⑤ **Foam wall technology**
Anti-sag and enhanced side seating support.
- ⑥ **Bottom airmesh fabric**
A smart fabric stitched to the mattress that supports an airy night of sleep.

Impressions foam provides consistent, contour-hugging comfort and even pressure distribution, independent of ambient temperature.
- ④ **Sleepwell Latex Plus® foam**
Sleepwell's Latex Plus® foam delivers plush, resilient comfort with enhanced pressure point relief and optimal body support.
- ⑤ **Acuprofile comfort layer**
Carefully calibrated wave pattern for enhanced comfort. Ergonomically designed, unique profiling offers distinct pressure relief to different pressure points of the body, enhances airflow, freshness and bounce.
- ⑥ **Sleepwell Resitec® foam with VPF**
Flexible and resilient, this layer ensures even pressure distribution for added comfort. With VPF technology, it also contributes to an eco-friendly sleep solution.

Advantages

 Luxurious gentle feel

 Euro-top finish

 Pro Latex Plus® technology

Optimal body support

 15.0 cm (6.0") thick

 Contour hugging

 Assured warranty*
