The Making of your Marvellous Mattress

Test. Test Again. Repeat.

With Wakefit's ActiveCool & PureSleep Series, we make every night feel like a staycation. Our mattresses are rigorously tested to deliver unmatched comfort and the best sleep anytime, anywhere.

Hot Air Oven Test

To ensure your mattress foam gives you the same comfort across variable temperatures without changing its thickness.

Foam Compression Test

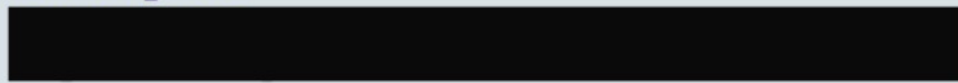

To ensure your mattress foam maintains its density, shape & firmness under heavy load without changing its thickness.

Elongation Test

Humidity Test

Ball Resilience Test

To ensure your mattress foam is as bouncy as you need it to be.

Mattress Breathability Test

To ensure your mattress has proper air circulation to keep your body cool & give you peaceful sleep throughout the night.

Body Contouring & Airflow Test

To ensure your mattress foam provides you comfort according to the pressure points in your body.

Indentation Hardness Test

Another test to ensure you get the perfect balance of firmness & softness in your mattress.

Pounding Test

To ensure that your mattress foam performs even when subjected to varying levels of force.

Welcome to --- Wakefit ActiveCool & PureSleep Series

Wakefit ActiveCool & Puresleep Series is a state-of-the-art premium range of mattresses from the House of Wakefit. Designed for customers who want more out of their mattresses, these are made with luxury-grade materials & rigorously tested for perfection. Our mission is to ensure that you & your family sleep blissfully on mattresses built to last a lifetime.

Flip this page and step into an oasis of comfort, with our flagship range of mattresses crafted with a perfect combination of science, innovation, industry experience & our love for good sleep.

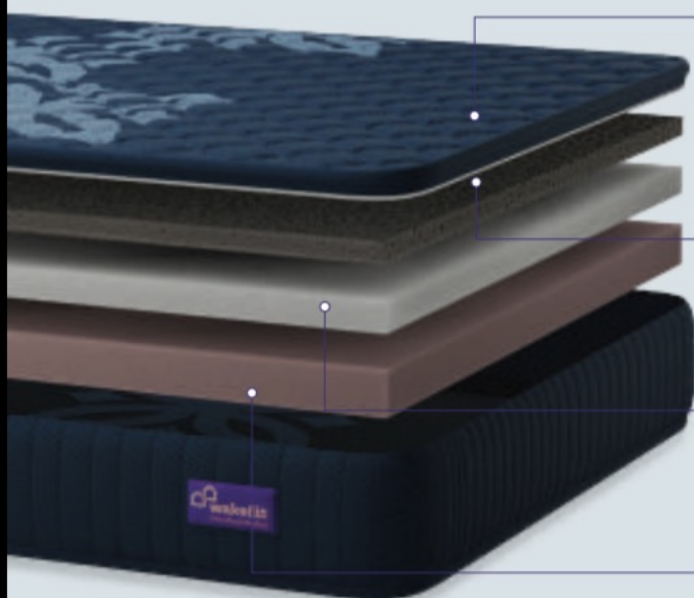

BodyContour™ Ortho Plus ActiveCool™ Mattress

This mattress combines our BodyContour™ memory foam technology with our proprietary ActiveCool™ technology, using water-based polymers & Phase Change Materials (PCM) particles that absorb & release heat to regulate your body temperature. The advanced memory foam layer takes the shape of your body and naturally aligns your spine to give you the highest quality of sleep.

Perfect viscoelastic formulation allows the BodyContour™ memory foam to respond to the sleeper's body pressure with the right thickness & density so that the sleeper does not sag into the mattress.

Adapts perfectly
to your body

AeroTex™ + BodyContour™ +

ActiveCool™ Cushions your body while regulating temperature by releasing or absorbing heat as needed

BodyContour™ Memory Foam

Offers spinal alignment and pressure relief for deep, restorative sleep

NaturaPureSleep Latex Mattress

Designed with innovative monozone pin-core latex, this mattress features tiny cylindrical holes that adjust to your body's natural curves while keeping airflow steady for a cooler, more comfortable sleep. Paired with a firm rebonded layer for proper spinal alignment, it helps you wake up refreshed, recharged, and ready to take on the day.

Our ethically sourced natural latex is heat-resistant & hypoallergenic due to the nature of latex rubber, giving you firm & responsive support without retaining any heat.

Enhances natural
comfort & airflow

AeroTex™ Plus Fabric

Washable zipper cover with soft, comfortable & hypoallergenic material

45mm ErgoTech™ Natural Latex

Thicker latex for more comfort; consistent support with pinhole airflow layer

PostureFlex PureSleep Memory Foam Mattress

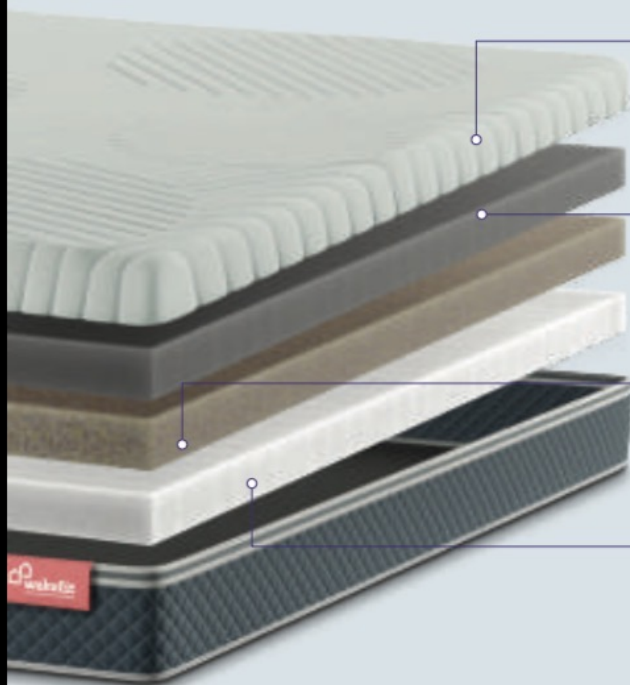

After years of research, we've cracked the perfect formula to balance elasticity and support, so you get the best sleep possible.

Our BodyContour™ memory foam adapts to your body, keeping your spine naturally aligned for healthier sleep, while rebonded foam reduces pressure points to show your back extra love.

Plus, with just the right density and thickness, it ensures you stay supported without sinking in.

Reduces pressure
on your back
